Noel Lee was born and raised in Lettermullen, Co Galway, a beautiful windswept Island off the West Coast of Ireland. For generations, the Lee family have been hand harvesting Seaweed of the Connemara Coast.

Connemara Organic Seaweed Company is located on the Wild Atlantic Way and our mission is to provide local, hand harvested, sustainable, sea vegetable and seaweed products for human consumption and also for beauty products. Having a positive impact on the community and the environment is at the core of what we do along with providing and introducing our products as an alternative food source that is healthy, nutritional, and tasty. We believe Small-scale, local produce is key to a happier life and leads to a lower carbon footprint. By providing food from

our waters, we hope to contribute to a low-carbon economy that takes care of its environment. We hope that seaweed becomes part of everyone's diet and that we come to recognise it for what it is. A superfood, both environmentally and nutritionally! Check us out at www.connemaraseaweedcompany.ie.

All our products are organically certified. Our products include Fucus Vesiculosus, Fucus Serratus, Saccharina Lattissima and Himalthalia Elongata. We also produce seaweed spa and beauty ingredients to supply the cosmetic industry including seaweed baths.

Product Range

Whole leaf and milled seaweed - see website for full range of species
