The local sea conditions are ideal for growing Pacific (Crassostrea Gigas) oysters, with the company growing and selling more than two million oysters annually.

The oysters are harvested under the strictest quality control, while the presentation of the product varies to complement the demands of a specific marketplace.

Why Us

The product is sourced from Class 'A' nutrient-rich waters. There is full traceability of the product, while all orders are packed tailored to the customer's specification.

Our product range

Irish farmed oysters: standard and specials

Markets supplied

Asia Pacific

China

Sustainability

Irish Premium Oysters is committed to the Origin Green sustainability programme to increase resource efficiency, minimize our impact on the environment and to make us more ecologically aware.
