Visit us for tips and advice

The herb enterprise started small but has grown steadily, increasing its production capabilities. The company has developed throughout the years by putting customer satisfaction and experience with its fresh herbs at the core of everything it does.

In season, O'Hanlon Herbs grows Bord Bia Quality Assurance Scheme approved Irish cut herbs, while out of season it sources from quality approved suppliers abroad. All of its herb products go through rigorous agronomic checks and are food safety audited to BRC standard. It packages its selection of fresh herbs on site in Wicklow, using bespoke herb packaging to ensure optimal freshness.

Why Us

O'Hanlon Herbs takes pride in its countryside location in Glenealy, set in the heart of the Garden of Ireland, Wicklow. It is involved in various sustainability projects and aims to operate as an environmentally-friendly business.

Its primary goal is to produce fresh products economically to create the greatest value for the customers. Its philosophy is to invest in employees and production to consistently deliver quality products to customers.

Sustainability

We launched our compostable range at Bloom in the Park 2019! We stripped the product right back, removing the pot, and replacing the packaging with TUV Austria approved 100% compostable packaging.
