The Little Milk Company is a co-operative of organic dairy farmers residing throughout the Irish provinces of Munster and Leinster.

All of its farms are family-owned and operated using organic farming methods. Its herds include a mix of Jersey and Montbeliarde cows, which are renowned for producing the highest-quality milk.

We use our organic milk to make a range of cheeses. Our traditional round

wheels cheddars are handmade and hand turned using traditional cheese making techniques.

We also use our organic milk to make natural mild flavoured cheese perfect for families or retail.
