## ★ ENVIRONMENT

- ABC Nutritionals have set targets to reduce energy usage by 10% over a five year period.
- By 2024, ABC Nutritionals aim to ensure 20% of all pouches produced are recyclable.
- The company plans to reduce general waste by 10% over a five year period. Currently no waste goes to landfill. Only energy recovery & recycling.

## ★ RAW MATERIAL SOURCING

- ABC Nutritionals aim to have 100% of all key suppliers hold sustainability certification by 2024.
- Ensure that at least 97% of Milk Products from suppliers with SDAS or equivalent for the duration of the plan.

## ★ BIODIVERSITY

- ABC Nutritionals are currently building a new facility with 22 acres. We plan to include more Biodiversity initiatives for staff to use and enjoy. This will potentially include: Wildflower Garden, Pollinator, Planting of trees & gardens, Greenhouse tunnel for vegetables and sections for animal rearing.

## ★ SOCIAL SUSTAINABILITY

- ABC Nutritionals produce health & nutrition related products often consumed by sports enthusiasts. ABC Nutritionals aim to launch 180 new products focused at everyday consumers focusing on convenient healthy nutraceutical and high protein healthy on the go snacking products.
- ABC Nutritionals commit to increase donations to local community schemes by 10% over the next 5 years. Staff engagement is vital in the company's decision making on community schemes commitments. Such as Blood Bike programmes and COVID19 response schemes.
